THE BRITISH JOURNAL OF NON-DESTRUCTIVE TESTING

VOLUME 31 1989 - INDEXES

The British Journal of Non-Destructive Testing is published by
The British Institute of Non-Destructive Testing, 1 Spencer Parade, Northampton NN1 5AA, England
Telephone: Northampton (0604) 30124 (answering service) *Telex:* 31612 OTSSG, *Fax:* (0604) 231489

KEY TO ISSUES

Number 1 January	**1-64**	**Number 7 July**	**369-420**
Number 2 February	**65-120**	**Number 8 August**	**421-476**
Number 3 March	**121-176**	**Number 9 September**	**477-540**
Number 4 April	**177-236**	**Number 10 October**	**541-596**
Number 5 May	**237-304**	**Number 11 November**	**597-656**
Number 6 June	**305-368**	**Number 12 December**	**657-712**

REGULAR FEATURES AND SHORT TITLES

Annual Report 265

Beginner's Guide 196, 314, 392

Benevolent Fund 585, 588

Book Reviews:
Microstructural Characterisation.
Ed. E Metcalfe 47
Mathematical Modelling in NDT.
Ed. M Blakemore, G A Georgiou 47
Ultrasonics, Fundamentals, Technology, Applications.
Dale Ensminger 156
Total Quality Management.
Ed. R L Chase 281
Signal Processing and Pattern Recognition in NDE of Materials.
Ed. C H Chen 346
Automated Inspection and Quality Assurance.
S L Robinson, R K Miller 346
Testing of Concrete in Structures (2nd edition).
J H Bungey 346
Techtrends — International Reports on Advanced Technology — Non-destructive Testing 510
X-ray Real-Time Radiography and Image Processing.
Ed. R Halmshaw 510
An External Interface for Processing 3-D Holographic and X-ray Images.
Ed. W Juptner, T Kreis 572
NDE in Relation to Structural Integrity.
Ed. R W Nichols, G J Dau, S J Crutzen 634
NDT Handbook, 2nd edition. Vol. 6. Magnetic Particle Testing.
Ed. J Schmidt, K Skeie 692

Standards News 49, 102, 158, 218, 282, 347, 399, 459, 513 573, 635, 693

Symposium Reports:
X-Ray Real-Time Radiography and Image Processing, Newbury 214
Non-destructive Testing of Steel Wire Ropes, London 214
The Responsibility of the ASNT NDT Level III in Industry, London 214
On-line Debris Monitoring, London 279
Accurate Flaw Growth Monitoring, Harwell 280
Training of NDT Personnel for the 1990's, Sandwell 341
Automated Viewing Methods, Solihull 405
NDT of Surface-breaking Cracks, London 684
Training Requirements 145
12th World Conference, Amsterdam 208, 224, 327

AUTHOR INDEX

Allen D (with Woods P W)
Automated detection of surface defects in machined castings 665

Atherton D L (with others)
Investigations of the remote field eddy current technique in large diameter pipeline 485

Atherton D L (with Sullivan S)
The effect of an external tube on the remote field eddy current effect 547

Baldev Raj (with others)
Couplant correction for ultrasonic measurements 78

Baldev Raj (with others)
Multiple back echo technique — a possible method to achieve higher sensitivity 127

Baldev Raj (with others)
Evaluation of abrasive wheels by an ultrasonic dry couplant technique 388

Barat P (with others)
Multiple back echo technique — a possible method to achieve higher sensitivity 127

Bhattacharya D K (with others)
Multiple back echo technique — a possible method to achieve higher sensitivity 127

Bhattacharya D K (with others)
Evaluation of abrasive wheels by an ultrasonic dry couplant technique 388

Blakemore M (with others)
The application of the geometrical theory of diffraction to modelling pulsed ultrasonic inspection: a system model 551

Brenneke H
Early failure detection in gas turbine aero-engines using magnetic plugs 87

Bridge B (with Tahir Z)
A study of omnidirectional scattering of 4 - 30 MHz ultrasound from periodically rough-machined aluminium surfaces (Part 1) 9

Bridge B (with others)
Preliminary experiments with an automated three-dimensional Compton imaging system using a weak Barium-133 source 134

Bridge B (with Tahir Z)
A study of omnidirectional scattering of 4 - 30 MHz ultrasound from periodically rough-machined surfaces (Part 2) 189

Bridge B (with Tahir Z)
Omnidirectional scattering of 4 - 20 MHz ultrasound from randomly rough-machined aluminium surfaces 322

Bridge B (with Sudin R)
A study of high frequency Lamb wave propagation in very thin metal foils and plates 425

Brooks A (with Lester M F)
Debris testing progress and further developments 22

Brown A F
Educating the educators — awareness of NDT in Academe 395

Burch S F (with Ramsey A T)
Digital techniques to derive and display the phases of ultrasonic pulses 185

Chandrasekharan K N (with others)
Continuous motion radiography: a solution to X-ray radiography of nuclear fuel plates 562

Chapman R K (with others)
The application of the geometrical theory of diffraction to modelling pulsed ultrasonic inspection: a system model 551

Ciorau P
Critical comments concerning the use of IQIs for monitoring radiographic sensitivity 671

Edwards A J (with others)
Measurement of the electrical resistivity of reinforced concrete structures for the assessment of corrosion risk 617

Fenn R
Monitoring and controlling welding by ultrasonic means 82

Firth D (with others)
The application of the geometrical theory of diffraction to modelling pulsed ultrasonic inspection: a system model 551

Forli O
NDT offshore: a review 441

Fothergill J R (with others)
Development of high-temperature ultrasonic transducers for under-sodium viewing applications 259

Georgiou G A (with others)
The application of the geometrical theory of diffraction to modelling pulsed ultrasonic inspection: a system model 551

Ghosh J K (with others)
Continuous motion radiography: a solution to X-ray radiography of nuclear fuel plates 562

Halmshaw R
A beginner's guide to — industrial radiography techniques 392

Halmshaw R
IQI and flaw sensitivity in pipe weld radiography 665

Harirchian F (with others)
Preliminary experiments with an automated three-dimensional Compton imaging system using a weak Barium-133 source 134

Harrison J A (with others)
Measurement of the electrical resistivity of reinforced concrete structures for the assessment of corrosion risk 617

Harrop I (with Summerscales J)
Acoustic emission testing of the structural integrity of multicore cable 383

Imrie D C (with others)
Preliminary experiments with an automated three-dimensional Compton imaging system using a weak Barium-133 source 134

Ishii Y (with others)
Ultrasonic testing for near surface flaws in castings 611

Katamine A (with others)
Ultrasonic testing for near surface flaws in castings 611

Kerr F M
Simplified radiography of low density sheet materials 131

Kung W (with others)
Automatic measurement of travel time in ultrasonic inspection 19

Latter T
A guide to the different methods of coating thickness measurement 372

Lester M F (with Brooks A)
Debris testing progress and further developments 22

Levy J C
Europe 1992 Engineers and Engineering 199

Mak D K (with others)
Automatic measurement of travel time in ultrasonic inspection 19

Mak D K
Accuracy in locating a point scatterer in ultrasonic testing, using the TOFD technique 481

McLaughlin K
A beginner's guide to — wall thickness measurement using ultrasound 196

Mehrabi Y (with others)
Preliminary experiments with an automated three-dimensional Compton imaging system using a weak Barium-133 source 134

Meragi A R (with others)
Preliminary experiments with an automated three-dimensional Compton imaging system using a weak Barium-133 source 134

Millard S G (with others)
Measurement of the electrical resistivity of reinforced concrete structures for the assessment of corrosion risk 617

Nee Lam Loh
Non-destructive replica metallography 437

Ohira G (with others)
Ultrasonic testing for near surface flaws in castings 611

Onozawa M (with others)
Ultrasonic testing for near surface flaws in castings 611

Palanichamy P (with others)
Couplant correction for ultrasonic measurements 78

Palanichamy P (with others)
Multiple back echo technique — a possible method to achieve higher sensitivity 127

Palanichamy P (with others)
Evaluation of abrasive wheels by an ultrasonic dry couplant technique 388

Patil B P (with others)
Continuous motion radiography: a solution to X-ray radiography of nuclear fuel plates 562

Prasad R
Recent ultrasonic techniques for quality evaluation of castings ... 494

Ramsey A T (with Burch S F)
Digital techniques to derive and display the phases of ultrasonic pulses 185

dos Reis H L M
Non-destructive evaluation of adhesive bond strength in laminated wood beams 675

Rose J L (with Tverdokhlebov A)
Ultrasonic testing considerations for metals with mild anisotropy . 71

Rudlin J R
A beginner's guide to — eddy current testing 314

Santilli R
The Fulmer method of monitoring fluid abrasivity as an indication of fluid condition and machine health 605

Schmidt T R (with others)
Investigations of the remote field eddy current technique in large diameter pipeline 485

Silk M G
The interpretation of TOFD data in the light of ASME XI and similar rules 242

Silk M G (with Whapham A D)
Living with defects 307

Simpson G
Sensitivity in ultrasonic NDT 33

Somerville I R (with Mak D K, Kung W)
Automatic measurement of travel time in ultrasonic inspection 19

Stade J
Granularity of X-ray films — some new ideas 489

Stroud R
Problems and observations whilst dynamically monitoring molten weld pools using ultrasound 29

Subramanian C V (with others)
Couplant correction for ultrasonic measurements 78

Subramanian C V (with others)
Multiple back echo technique — a possible method to achieve higher sensitivity 127

Subramanian C V (with others)
Evaluation of abrasive wheels by an ultrasonic dry couplant technique 388

Sudin R (with Bridge B)
A study of high frequency Lamb wave propagation in very thin metal foils and plates 425

Sullivan S (with Atherton D L)
The effect of an external tube on the remote field eddy current effect 547

Summerscales J (with Harrop I)
Acoustic emission testing of the structural integrity of multicore cable 383

Tahir Z (with Bridge B)
A study of omnidirectional scattering of 4 - 30 MHz ultrasound from periodically rough-machined aluminium surfaces. (Part 1) 9

Tahir Z (with Bridge B)
A study of omnidirectional scattering of 4 - 30 MHz ultrasound from periodically rough-machined surfaces. (Part 2) 189

Tahir Z (with Bridge B)
Omnidirectional scattering of 4 - 20 MHz ultrasound from randomly rough-machined aluminium surfaces 322

Thavasimuthu M (with others)
Evaluation of abrasive wheels by an ultrasonic dry couplant technique 388

Toal C J (with others)
Investigations of the remote field eddy current technique in large diameter pipeline 485

Tverdokhlebov A (with Rose J L)
Ultrasonic testing considerations for metals with mild anisotropy . 71

Waywell S (with others)
Development of high-temperature ultrasonic transducers for under-sodium viewing applications 259

Webster C
Some individual psychological factors leading to error in ultrasonic testing 680

Weiler W
Hardness testing — a new method for economical and physically meaningful microhardness testing 253

Whapham A D (with Silk M G)
Living with defects 307

Whittington K R
EMAT-generated Lamb waves applied to hot aluminium strip profile measurement with temperature compensation 140

Willis P (with others)
Development of high-temperature ultrasonic transducers for under-sodium viewing applications 259

Woods P W (with Allen D)
Automated detection of surface defects in machined castings 665

SUBJECT INDEX

ACOUSTIC EMISSION
Acoustic emission testing of the structural integrity of multicore cable.
I Harrop, J Summerscales 383

AEROSPACE
Early failure detection in gas turbine aero-engines using magnetic plugs.
H Brenneke 87

BOND TESTING
Non-destructive evaluation of adhesive bond strength in laminated wood beams.
H L M dos Reis 675

CASTING INSPECTION
Recent ultrasonic techniques for quality evaluation of castings.
R Prasad 494
Ultrasonic testing for near surface flaws in castings.
M Onozawa, A Katamine, Y Ishii, G Ohira 611
Automated detection of surface defects in machined castings.
P W Woods, D Allen 665

CERTIFICATION
The Central Certification Board 445

COMPTON BACK SCATTER METHODS
Preliminary experiments with an automated three-dimensional Compton imaging system using a weak Barium-133 source.
B Bridge, F Harirchian, D C Imrie, Y Mehrabi, A R Meragi 134

CONCRETE TESTING
Measurement of the electrical resistivity of reinforced concrete structures for the assessment of corrosion risk.
S G Millard, J A Harrison, A J Edwards 617
The detection of corroding reinforcement in concrete structures.
K McLaughlin 683

CONDITION MONITORING
The Fulmer method of monitoring fluid abrasivity as an indication of fluid condition and machine health.
R Santilli 605

DEFECTS
Living with defects.
M G Silk, A D Whapham 307

DEBRIS TESTING
Debris testing progress and further developments.
M F Lester, A Brooks 22

EDUCATION
Educating the educators — awareness of NDT in Academe.
A F Brown 395

EUROPE 1992
Europe 1992 engineers and engineering.
J C Levy 199

EDDY CURRENT TESTING
A beginner's guide to — eddy current testing.
J R Rudlin 314
Investigations of the remote field eddy current technique in large diameter pipeline.
D L Atherton, C J Toal, T R Schmidt 485
The effect of an external tube on the remote field eddy current effect.
S Sullivan, D L Atherton 547

HARDNESS TESTING
Hardness testing — a new method for economical and physically meaningful microhardness testing.
W Weiler 253

LAMB WAVE TESTING
EMAT-generated Lamb waves applied to hot aluminium strip profile measurement with temperature compensation.
K R Whittington 140
A study of high frequency Lamb wave propagation in very thin metal foils and plates.
B Bridge, R Sudin 425

MAGNETIC METHODS
Early failure detection in gas turbine aero-engines using magnetic plugs.
H Brenneke 87
Automated detection of surface defects in machined castings.
P W Woods, D Allen 665

METALLOGRAPHY
Non-destructive replica metallography.
Nee Lam Loh 437

NEUTRON RADIOGRAPHY
International neutron radiography newsletter No. 17.
NRWG test program: parts 2, 3, 4 35
International neutron radiography newsletter No. 18.
NRWG; 1979-1989 706

OFFSHORE NDT
NDT offshore: a review.
O Forli 441

PSYCHOLOGY IN NDT
Some individual psychological factors leading to error in ultrasonic testing.
C Webster 680

RADIOGRAPHIC FILM
Granularity of X-ray films — some new ideas.
J Stade 489

RADIOGRAPHY
Simplified radiography of low density sheet materials.
F M Kerr 131
Preliminary experiments with an automated three-dimensional Compton imaging system using a weak Barium-133 source.
B Bridge, F Harirchian, D C Imrie, Y Mehrabi, A R Meragi 134
A beginner's guide to — industrial radiography techniques.
R Halmshaw 392
Granularity of X-ray films — some new ideas.
J Stade 489
Continuous motion radiography: a solution to X-ray radiography of nuclear fuel plates.
K N Chandrasekharan, B P Patil, J K Ghosh 562
IQI and flaw sensitivity in pipe weld radiography.
R Halmshaw 664
Critical comments concerning the use of IQIs for monitoring radiographic sensitivity.
P Ciorau 671

RESISTIVITY MEASUREMENT
Measurement of the electrical resistivity of reinforced concrete structures for the assessment of corrosion risk.
S G Millard, J A Harrison, A J Edwards 617

THICKNESS GAUGING
A beginner's guide to — wall thickness measurement using ultrasound.
K McLaughlin 196
A guide to the different methods of coating thickness measurement.
T Latter 372

TOFD
The interpretation of TOFD data in the light of ASME XI and similar rules.
M G Silk 242
Accuracy in locating a point scatterer in ultrasonic testing using the TOFD technique.
D K Mak 481

ULTRASONIC TESTING
A study of omnidirectional scattering of 4 - 30 MHz ultrasound from periodically rough-machined aluminium surfaces.
B Bridge, Z Tahir ..... Part 1..... 9
Part 2.....189
Automatic measurement of travel time in ultrasonic inspection.
D K Mak, I R Somerville, W Kung 19
Problems and observations whilst dynamically monitoring molten pools using ultrasound.
R Stroud 29
Sensitivity in ultrasonic NDT.
G Simpson 33
Ultrasonic testing considerations for metals with mild anisotropy.
J L Rose, A Tverdokhlebov 71
Couplant correction for ultrasonic measurements.
P Palanichamy, C V Subramanian, Baldev Raj 78
Monitoring and controlling welding by ultrasonic means.
R Fenn 82
Multiple back echo technique — a possible method to achieve higher sensitivity.
C V Subramanian, P Palanichamy, P Barat, D K Bhattacharya, Baldev Raj 127
EMAT-generated Lamb waves applied to hot aluminium strip profile measurement with temperature compensation.
K R Whittington 140
Sensitivity explicated.
C Webster 180
Digital techniques to derive and display the phases of ultrasonic pulses.
S F Burch, A T Ramsey 185
A beginner's guide to — wall thickness measurement using ultrasound.
K McLaughlin 196
Couplant corrections for ultrasonic measurements.
M Nicholls 239
The interpretation of TOFD data in the light of ASME XI and similar rules.
M G Silk 242
Development of high-temperature ultrasonic transducers for under-sodium viewing applications.
J R Fothergill, P Willis, S Waywell 259
Omnidirectional scattering of 4 - 20 MHz ultrasound from randomly rough-machined aluminium surfaces.
B Bridge, Z Tahir 322
Couplant correction for ultrasonic measurements.
Baldev Raj 371
Evaluation of abrasive wheels by an ultrasonic dry couplant technique.
M Thavasimuthu, P Palanichamy, C V Subramanian, D K Bhattacharya, Baldev Raj 388
A study of high frequency Lamb wave propagation in very thin metal foils and plates.
B Bridge, R Sudin 425
More couplant corrections offered.
D Eddy 479
Accuracy in locating a point scatterer in ultrasonic testing, using the TOFD technique.
D K Mak 481
Recent ultrasonic techniques for quality evaluation of castings.
R Prasad 494
The application of the geometrical theory of diffraction to modelling pulsed ultrasonic inspection: a system model.
G A Georgiou, M Blakemore, R K Chapman, D Firth 551
Ultrasonic testing for near surface flaws in castings.
M Onozawa, A Katamine, Y Ishii, G Ohira 611
Non-destructive evaluation of adhesive bond strength in laminated wood beams.
H L M dos Reis 675
Some individual psychological factors leading to error in ultrasonic testing.
C Webster 680

WELD TESTING
Problems and observations whilst dynamically monitoring molten weld pools using ultrasound.
R Stroud 29
Monitoring and controlling welding by ultrasonic means.
R Fenn 82
